#### 1. Qualitative Information on Quarterly Results

## (1) Explanation of operational results

The Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020), etc. have been applied from the beginning of the first quarter of the consolidated fiscal year ending March 31, 2022 (April 1, 2021 to June 30, 2021). Accordingly, net sales for the first quarter of the consolidated fiscal year ending March 31, 2022 decreased from the first quarter of the previous consolidated fiscal year. Thereby, in the explanation on operational results for the first quarter of the consolidated fiscal year ending March 31, 2022, the Company explained net sales without describing the year-on-year percentage change.

During the first quarter of the consolidated fiscal year under review, the Japanese economy divided into two opposites. The re-declaration of a State of Emergency sent service businesses, such as restaurants and hotels, into a tailspin, while manufacturing industries showed steady recovery supported by robust demand from overseas. On the other hand, the global economy was on a recovery path against the background of a rebound in demand in Europe, the U.S. and China, where vaccinations progressed faster than other areas. However, the global economic outlook continued to be uncertain due to a worldwide spread of new coronavirus (hereinafter "COVID-19") variants.

Under these circumstances, the Unitika Group has been endeavoring to realize the building of strong business portfolios, promotion of global business development, and a change in business culture and mind-set—the Group's basic policies that place the strengthening of the foundation for a growth phase as the highest priority under *G-STEP30*, the 1st, a medium-term management plan announced in May 2020.

Consequently, the Group reported net sales of 28,057 million yen (versus net sales of 27,290 million yen in the previous year), operating profit of 2,109 million yen (up 34.6% year on year), ordinary profit of 1,781 million yen (up 97.2% year on year), and profit attributable to owners of parent of 1,259 million yen (up 298.6% year on year) in the first quarter of the consolidated fiscal year under review. The application of the Accounting Standard for Revenue Recognition, etc. caused net sales to decrease by 879 million yen.

Here is an overview of the business results by segment.

#### [Polymers Segment]

In the Films business, sales volume increased, contributing to steady growth, despite the negative impact of rising raw material prices. The packaging sector saw sales grow steadily due to a rise in demand from staying at home. Furthermore, sales of high-value-added products, such as *EMBLEM HG*, a barrier nylon film, continued to grow robustly in Japan and overseas. P.T. EMBLEM ASIA, a subsidiary in Indonesia, also performed solidly. In the industrial sector, sales were robust, mainly in semiconductor-related applications. In addition, sales of high-value-added products, such as *UNIPEEL*, a silicon-free release PET film, also increased steadily.

In the Plastics business, sales for automotive applications increased strongly and shipments for electrical and electronics applications were also steady, although there was negative impact from a rise in raw material prices. Sales of nylon resins increased due to a recovery in demand for mainly automotive-related applications, which decreased due to the impact of the COVID-19 pandemic in the previous year. Furthermore, sales of *U-Polymer*, a polyarylate resin, grew robustly for information terminal equipment applications. Sales of other raw materials were also strong since demand was on the rebound for capital-expenditure-related and construction materials, etc. applications.

Consequently, the Polymers segment posted operating profit of 2,198 million yen (up 61.1% year on year) on net sales of 12,504 million yen (versus net sales of 10,123 million yen in the previous year). The application of the Accounting Standard for Revenue Recognition, etc. caused net sales to increase by 803 million yen.

## [Performance Materials Segment]

In the Activated Carbon Fibers business, sales for mainstay water purifier applications were sluggish for some applications, including commercial-use applications, due to the impact of the COVID-19 pandemic. However, demand for other applications, in general, was on the rebound. Sales for both environment-related and automotive applications were steady.

In the Glass Fibers business, in the industrial materials sector, sales of incombustible sheets were weak for building-related applications since demand for private capital expenditures didn't recover. Furthermore, sales of filters were also sluggish for environment-related applications. In the electronic materials sector, sales of IC cloth remained robust for semiconductor and module applications, such as products for information terminal equipment and peripheral equipment. Sales of high-value-added products, including super-thin products and materials with low thermal expansion, were robust.

In the Glass Beads business, sales for road and reflective material applications almost recovered from the decrease in demand caused by the impact of the COVID-19 pandemic in the previous year. Sales for industrial applications, mainly automotive, were also steady.

In the Non-woven Fabrics business, sales for building and automotive applications moderately recovered from the decline in sales due to the impact of the COVID-19 pandemic in the previous year. Sales for skin care applications continued to be sluggish due to the impact of self-restraint concerning nonessential outings. On the other hand, demand stabilized for daily product applications, such as medical gowns, and for sanitary material applications, such as disinfectant sheets, which increased sharply in the previous year.

In the Industrial Materials business, sales of polyester staple fibers grew steadily due to a rise in demand for filter applications. Furthermore, sales of ultra-high-strength polyester filament yarns for building and civil engineering

applications gradually recovered from the decline caused by the COVID-19 pandemic.

Consequently, the Performance Materials segment posted operating profit of 82 million yen (down 56.6% year on year) on net sales of 8,445 million yen (versus net sales of 7,495 million yen in the previous year). The application of the Accounting Standard for Revenue Recognition, etc. caused net sales to increase by 554 million yen.

#### [Fibers and Textiles Segment]

In the Garments, Lifestyle Materials and Bedding business, sales for medical gowns, whose orders grew in the previous year, leveled off. Sales in the uniform sector, a mainstay of this business, in general, remained very weak since demand was sluggish mainly for the service and office-related sectors as well as the women's and sport clothing sectors, although there were some signs of recovery in demand for some applications and sales for medical applications were steady.

Consequently, the Fibers & Textiles posted an operating loss of 165 million yen (versus an operating profit of 82 million yen in the previous year) on net sales of 7,093 million yen (versus net sales of 9,663 million yen in the previous year).

The application of the Accounting Standard for Revenue Recognition, etc. caused net sales to decrease by 2,237 million yen.

#### [Others]

The Others category posted an operating loss of 1 million yen (versus an operating loss of 10 million yen in the previous year) on net sales of 14 million yen (versus net sales of 8 million yen in the previous year). The application of the Accounting Standard for Revenue Recognition, etc. didn't have impact on net sales.

### (2) Explanation of financial position

Total assets increased by 1,884 million yen from the end of the previous consolidated year to 192,288 million yen mainly due to a rise in inventories. Liabilities fell by 111 million yen from the end of the previous consolidated year to 149,099 million yen. This was primarily due to a decline in long-term borrowings. Net assets increased by 1,996 million yen from the end of the previous consolidated year to 43,188 million yen. This was mainly due to a rise in retained earnings caused by the posting of profit attributable to owners of parent.

(3) Explanation of future forecast information including forecast of consolidated performance For details of the forecast of consolidated performance, please refer to Notice Regarding the Revision of the Forecast of Consolidated Performance announced on August 5, 2021.

# (3) Notes on quarterly consolidated financial statements

(Notes on assumption of going concern)

Not applicable

(Notes on a significant change in shareholders' equity) Not applicable

# (Changes in accounting policies)

(Application of Accounting Standard for Revenue Recognition, etc.)

The Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020; hereinafter "Revenue Recognition Standard"), etc. have been applied from the beginning of the first quarter of the consolidated fiscal year ending March 31, 2022. The Company recognizes revenue in the amount that it expects to receive in exchange for promised goods or services at the time control of the goods or services is transferred to customers.

Thereby, if the Company's performance obligation is to arrange for the provision of goods or services promised to customers by another party, the Company, as an agent, recognizes revenue on a net basis.

Consequently, net sales and cost of sales for the first quarter of the consolidated fiscal year ending March 31, 2022 each decreased by 879 million yen.

The Revenue Recognition Standard, etc. were applied in accordance with the transitional treatment set forth in the proviso of Paragraph 84 of the Revenue Recognition Standard. However, these changes had no impact on the balance of retained earnings at the beginning of the consolidated fiscal year ending March 31, 2022.

Due to the application of the Revenue Recognition Standard, etc., "Notes and accounts receivable-trade" in "Current assets" on the consolidated balance sheets for the previous consolidated fiscal year were stated as "Notes and accounts receivable-trade, and contract assets" from the first quarter of the consolidated fiscal year ending March 31, 2022. According to the transitional treatment set forth in Paragraph 89-2 of the Revenue Recognition Standard, comparative information for the previous consolidated fiscal year was not reclassified by the new method of presentation. Furthermore, in compliance with the transitional treatment set forth in Paragraph 28-15 of the "Accounting Standard for Quarterly Financial Reporting" (ASBJ Statement No. 12, March 31, 2020), information on the breakdown of revenue generated from contracts with customers for the first quarter of the previous consolidated fiscal year was not shown.

## (Application of Accounting Standard for Fair Value Measurement, etc.)

The Accounting Standard for Fair Value Measurement (ASBJ Statement No. 30, July 4, 2019; hereinafter "Fair Value Measurement Standard"), etc. have been applied from the beginning of the first quarter of the consolidated fiscal year ending March 31, 2022. In accordance with the transitional treatment prescribed in Paragraph 19 of the Fair Value Measurement Standard and Paragraph 44-2 of the Accounting Standard for Financial Instruments (ASBJ Statement No. 10, July 4, 2019), the Company has decided to apply the new accounting policies set forth by the Fair Value Measurement Standard into the future. These changes had no impact on the quarterly consolidated financial statements.

#### (Additional information)

(Application of tax effect accounting for the transition from the consolidated taxation system to the group tax sharing system)

As to items subject to transition to the group tax sharing system, established under the Act for Partial Revision of the Income Tax Act (Act No. 8 of 2020), and items reviewed under the non-consolidated taxation system in conjunction with the transition to the group tax sharing system, the Company and some of its consolidated subsidiaries in Japan have not applied the provisions in Paragraph 44 of the Implementation Guidance on Tax Effect Accounting (ASBJ Guidance No. 28, February 16, 2018) in accordance with the treatment under Paragraph 3 of the Practical Solution on the Treatment of Tax Effect Accounting for the Transition from the Consolidated Taxation System to the Group Tax Sharing System (ASBJ Practical Issues Task Force (PITF) No. 39, March 31, 2020), and the amounts of deferred tax assets and deferred tax liabilities were based on the provisions of the Income Tax Act before the revision.

# (Impact of the COVID-19 pandemic)

As to the assumption on the impact of the COVID-19 pandemic that the Group described in the Securities Report (material accounting estimates) for the previous consolidated fiscal year, there were no material changes in the first quarter of the consolidated fiscal year ending March 31, 2022.

(Application of Revenue Recognition Standard, etc.)

As described in *(Changes in accounting policies)*, the Company has changed its accounting method on revenue recognition by applying the Revenue Recognition Standard, etc. from the beginning of the first quarter of the consolidated fiscal year ending March 31, 2022.

Consequently, in the first quarter of the consolidated fiscal year ending March 31, 2022, compared to those under the previous accounting method, net sales of the Polymers and the Performance Materials businesses increased by 803 million yen and 554 million yen, respectively, while net sales of the Fibers & Textiles business decreased by 2,237 million yen.
