1. Qualitative Information on Quarterly Results

(1) Explanation of operational results

During the nine-month period of the consolidated fiscal year under review, the Japanese economy continued to grow moderately, supported by solid capital investment and consumer spending in Japan as well as good employment and income environment, despite the impact of natural disasters such as typhoons, a temporary decrease in domestic demand following the consumption tax rate hike, and a slowdown in external demand. Meanwhile, the outlook for the global economy remained unclear, although the U.S. economy continued to grow strongly. This was due to lingering economic stagnation in China as well as concern over a recurrence of the harsh trade dispute between the U.S. and China, and geopolitical risks such as unstable situations in the Middle East.

Under these circumstances, the Unitika Group endeavored to realize the three *Gs* (*Growth*, *Global*, and *Governance*) promoted under the "*G*" round 20—to The Next Stage, its medium-term management plan. Consequently, the Group reported net sales of 88,764 million yen (down 7.2% year on year), operating profit of 3,850 million yen (down 39.8% year on year), and ordinary profit of 2,917 million yen (down 47.0% year on year) in the nine-month period of the consolidated fiscal year under review. Meanwhile, the Group posted 2,540 million yen of provision for loss on litigation, as an extraordinary loss, resulting in loss attributable to owners of parent of 1,121 million yen in the nine-month period of the consolidated fiscal year under review (vs. profit attributable to owners of parent of 4,574 million yen in the previous year).

Here is an overview of the business results by segment.

[Polymers]

The Polymers business saw the occurrence of a fire at the Uji Plant in January 2019 affect production and sales of the Films business and nylon products in the Plastics businesses.

In the Films business, the packaging sector saw the impact of the fire at the Uji Plant, and the slowdown in demand for some seasonal products because of unseasonable weather, including a delay in the end of the rainy season and a mild winter. However, sales of high-value-added products, such as *EMBLEM HG*, a barrier nylon film, continued to grow steadily in Japan and overseas. In the industrial sector, sales decreased due to the deterioration of market conditions in the area of semiconductor applications both at home and abroad. Meanwhile, sales of high-value-added products, such as *Uni-amide*, a heat-resistant thermoplastic polyamide film, increased steadily in the first half of the year, but decreased in the second half. Sales of *Uni-peel*, a silicon-free mold release PET film, expanded robustly.

In the Plastics business, profitability of nylon resins deteriorated due to the impact of the fire at the Uji Plant and rising costs. Furthermore, sales of *U-Polymer*, a polyarylate resin, faced an uphill battle due to a fall in demand for automobile applications overseas and inventory adjustment for information terminal equipment applications. Sales of raw materials for other functional resins were also sluggish due to a decline in demand caused by the stagnation of the Chinese economy and a decrease in automobile production.

In the Non-woven Fabrics business, sales of polyester spunbond fabrics, in general, grew steadily for building material applications, such as civil engineering, but were largely sluggish for other applications including agriculture. THAI UNITIKA SPUNBOND CO., LTD. (TUSCO), a subsidiary in Thailand, saw its efforts to encourage customers to adopt products manufactured by its new machinery at the stage of design pay off, but overall sales were sluggish due to a fall in demand for automobile-related applications. Meanwhile, sales of cotton spunlace temporarily decreased in Japan due to the impact of inventory adjustment by business partners, but grew strongly overseas for sanitary material applications.

Consequently, the Polymers business posted operating profit of 3,939 million yen (down 33.2% year on year) on net sales of 42,738 million yen (down 9.4% year on year).

[Advanced Materials]

In the Glass Fibers business, the industrial materials sector saw sales of products for building applications, such as smoke barriers, and sales for environment-related applications, grow steadily. In the electronic materials sector, sales of IC cloth, especially high-value-added products, such as super thin products and materials with low thermal expansion grew steadily, despite lingering weak semiconductor market recovery.

In the Glass Beads business, sales of products for industrial applications continued to be sluggish due to a fall in demand in the field of automotive and electronic components. However, demand for products for reflective material applications and for road applications remained robust.

In the Activated Carbon Fibers business, sales for our mainstay water purifier applications, especially faucet built-in water purifiers, continued to be strong and sales for industrial filter applications slightly recovered. However, sales for VOC removal applications partially suffered from the impact of customers' inventory adjustment.

Consequently, the Advanced Materials business posted operating profit of 769 million yen (down 13.6% year on year) on net sales of 9,836 million yen (up 3.3% year on year).

[Fibers and Textiles]

In the Industrial Materials business, sales of polyester staple fibers grew strongly for daily product applications and industrial material applications, but exports remained sluggish. Sales of ultra-high-strength polyester filament yarns grew steadily for material applications, but decreased for civil engineering and building applications. Furthermore, demand for fishery applications, in general, were weak.

In the Garments, Lifestyle Materials and Bedding business, sales continued to be sluggish in the sports clothing, women's clothing, and bedding sectors. Sales in the uniform sector, which had been robust chiefly for corporate customers, decreased. Furthermore, in the Overseas business, sales of denim remained flat from the previous year. Consequently, the Fibers and Textiles business posted an operating loss of 671 million yen (vs. operating loss of 121 million yen in the previous year) on net sales of 36,055 million yen (down 4.7% year on year).

[Others]

The Others category posted an operating loss of 181 million yen (operating loss of 237 million yen in the previous year) on net sales of 133 million yen (down 88.6% year on year).

(2) Explanation of financial situation

Total assets decreased by 3,183 million yen from the end of the previous consolidated year to 195,909 million yen, mainly due to a decrease in notes and accounts receivable-trade. Liabilities fell by 1,700 million yen from the end of the previous consolidated year to 156,040 million yen. This was primarily due to a decline in notes and accounts payable-trade despite the posting of provision for loss on litigation. Net assets fell by 1,483 million yen from the end of the previous consolidated year to 39,869 million yen. This was mainly due to a decrease in retained earnings caused by the posting of loss attributable to owners of parent.

(3) Explanation of future forecast information including forecast of consolidated performance

The Unitika Group did not revise its full-year forecast of consolidated performance for the fiscal year ending March 31, 2020 announced on November 8, 2019.

2. Quarterly Consolidated Financial Statements and Major Notes to Consolidated Financial Statements (1) Consolidated quarterly balance sheets

(Additional information)

In a lawsuit filed by citizens of Toyohashi City, Aichi Prefecture (the "City") who claimed that Unitika's sale of land for industrial use to a third party was a breach of the land transfer contract—the land was transferred by the City to the Company in 1951—and requested the mayor of the City to demand damages against the Company (the Company participated in the lawsuit as an assisting intervener), on February 8, 2018 the Nagoya District Court ordered the mayor to request the Company to pay 6,300 million yen in damages and delinquency charges. On February 20, 2018, the mayor appealed to the Nagoya High Court against the decision (the Company participated in the lawsuit as an assisting intervener). On July 16, 2019, the Nagoya High Court sentenced the mayor to request the Company to pay around 2,094 million yen in damages and delinquency charges. On July 29, 2019, the mayor appealed to the Supreme Court against the judgment made by the court of second instance and petitioned for acceptance of a final appeal. Meanwhile, the Company made reasonable estimates to calculate the amount based on the judgment by the High Court and posted 2,540 million yen of provision for loss on litigation.
