For details of dividend payment to the holders of classified shares (unlisted), the rights of which are different from those of common stock, please refer to Dividend payment to the holders of classified shares mentioned below.

3. Forecast of consolidated performance for fiscal year ending March 31, 2026 (April 1, 2025 to March 31, 2026)

The Company has decided to refrain from announcing a forecast of consolidated performance for the fiscal year ending March 31, 2026, since it is currently unable to make a reasonable estimate.

The reasons are provided in 1. Overview of Business Performance (4) Future forecast on page 3 of the attachment.

(1) Significant changes in the scope of consolidation during the period: No

New companies: — (company name)

Excluded companies: — (company name)

- (2) Changes in accounting policies, changes in accounting estimates and retrospective restatement
 - (i) Changes in accounting policies due to revisions of accounting standards: Yes
 - (ii) Changes of accounting policies other than the above: No
 - (iii) Changes in accounting estimates: No
 - (iv) Retrospective restatement: No
 - (Note) For details, please refer to 3. Consolidated Financial Statements and Major Notes to Consolidated Financial Statements (5) Notes on consolidated financial statements (Notes on change in accounting policies) on page 12 of the attachment.
- (3) Number of shares outstanding (Common stock)
 - (i) Number of shares outstanding at end of term (including treasury share):

Fiscal year ended March 31, 2025: 57,752,343 shares

Fiscal year ended March 31, 2024: 57,752,343 shares

(ii) Number of treasury shares at end of term:

Fiscal year ended March 31, 2025: 97,826 shares Fiscal year ended March 31, 2024: 96,907 shares

(iii) Average number of shares outstanding during the term:

Fiscal year ended March 31, 2025: 57,655,001 shares

Fiscal year ended March 31, 2024: 57,655,615 shares

(Reference) Summary of non-consolidated performance

Non-consolidated performance for fiscal year ended March 31, 2025 (April 1, 2024 to March 31, 2025)

* Explanation on appropriate use of forecasts of performance and other special items (Note on forward-looking statements)

The forward-looking statements in this document concerning forecasting of performance, etc. are based on currently available information and assumptions considered by the Company to be reasonable. Such statements are neither promises nor guarantees of future performance. The actual performance may be significantly different from forecasts due to various factors. Concerning assumptions used as a basis for forecasting business performance and precautionary statements when using the forecast of performance, please refer to 1. Overview of Business Performance (4) Future forecast on page 3 of the attachment.

(Method to obtain information on the presentation of financial results)

The Company plans to hold a results presentation conference call for securities analysts and institutional investors on Tuesday, May 27, 2025. It plans to post on its website supplementary documents to the financial results to be distributed at the results presentation.

^{*} The financial report is not subject to audit procedures by a certified public accountant or an independent auditor.

Dividend payment to the holders of classified shares

The breakdown of dividends per share related to classified shares, the rights of which are different from those of common stock, is as follows:

| | Annual dividends | | | | | |

1. Overview of Business Performance

(1) Overview of business performance of the year

During the consolidated fiscal year under review (April 1, 2024 to March 31, 2025), the domestic economy showed signs of a mild recovery against the backdrop of improvements in corporate earnings and the employment and income environment. Inbound demand expanded due to an increase in the number of visitors to Japan, while wage hikes supported consumer spending. In addition, capital investment became more active as companies sought to enhance their competitiveness. On the other hand, as the labor shortage worsened, the rise in personnel and logistics costs affected corporate earnings structures. Furthermore, the prolonged geopolitical risks and fluctuations in interest and foreign exchange rates, developments in U.S. monetary and trade policies and concerns over a slowdown in the Chinese economy continued to cloud the outlook for the Japanese economy.

Under these circumstances, on November 28, 2024, the UNITIKA Group announced its business restructuring plan with support from Regional Economy Vitalization Corporation of Japan ("REVIC"). At the Extraordinary General Meeting of Shareholders held on February 7, 2025, the Group received approval for the related resolution and decided to implement the business restructuring plan centered on withdrawal from unprofitable businesses. Furthermore, in response to the challenging business results in the previous fiscal year, the Group made overcoming the deficit its highest priority. The Group focused on efforts such as cost reductions, including expense cuts, improving profitability through price revisions, and strengthening profitability by promoting the sales of higher value-added functional products. Incidentally, the business restructuring plan is based on financial support, including debt forgiveness of up to 43,000 million yen, from the Company's financial institutions, and their consent has been obtained.

Consequently, in the consolidated fiscal year under review, the Unitika Group reported net sales of 126,411 million yen (up 6.8% year on year) and an operating profit of 5,851 million yen (versus an operating loss of 2,475 million yen in the previous consolidated fiscal year). With the progress of yen appreciation, the Group posted foreign exchange valuation losses on foreign currency-denominated assets of 155 million yen, resulting in an ordinary profit of 4,693 million yen (versus an ordinary loss of 1,014 million yen in the previous consolidated fiscal year). Additionally, in accordance with the business revitalization plan, UNITIKA reviewed the recoverability of non-current assets held by the Company and its subsidiaries, leading to the posting of business restructuring expenses (an impairment loss on non-current assets) of 37,932 million yen. As a result, the loss attributable to owners of parent amounted to 24,283 million yen (versus a loss of 5,443 million yen in the previous consolidated fiscal year).

Here is an overview of the business results by segment.

[Polymers Segment]

In the Polymers Segment, although raw material and fuel prices remained at a high level, the recovery in sales volume led to improved factory capacity utilization, and together with the effects of cost-reduction measures, manufacturing costs decreased. In addition, the price revisions across various products contributed to a rise in profitability.

In the Films business, looking at mainstay food packaging applications, the sales volumes of nylon films and polyester films recovered as market conditions improved over the period. In the industrial sector, sales were robust for some semiconductor-related applications, but sales of other industrial films were sluggish. As a result, sales volume in the sector as a whole remained unchanged. Furthermore, operating profit increased due to the effects of cost-reduction measures.

In the overseas market, profitability improved due to the suspension of unprofitable sales. However, the business continued to face competition from low-cost products. As a result, the Films business achieved growth in both net sales and operating profit.

In the Plastics business, the sales volume of engineering plastics declined due to sluggish sales in the automotive sector during the period and a delayed recovery in demand for electric and electronic components. Although sales increased only marginally, operating profit increased substantially due to the effects of price revisions. Sales of functional plastics, particularly high-performance products for adhesive and coating applications, grew, contributing to a significant improvement in profitability. As a result, the Plastics business achieved growth in both net sales and operating profit.

Consequently, the Polymers Segment saw both net sales and operating profit grow. The segment posted an operating profit of 6,000 million yen (versus an operating profit of 603 million yen in the previous consolidated fiscal year) on net sales of 55,393 million yen (up 8.5% year on year).

[Performance Materials Segment]

In the Performance Materials Segment, sales volume, chiefly in the electronic material sector that fell in the previous period, recovered strongly, leading to a rise in production volume. Subsequently, manufacturing costs decreased. Thanks to the price revisions across various products, profitability improved. As a result, the segment returned to operating profitability after posting an operating loss in the previous year.

In the Activated Carbon Fibers business, sales for mainstay water purifier applications were solid. However, sales for VOC removal sheets were sluggish for air purification applications. The business saw its overall sales slightly decrease.

In the Glass Fibers business, sales in the industrial material sector remained robust for building material applications. Particularly, incombustible tents and sheets sold well. In the electronic materials sector, sales for specific areas, such as generative AI and related data centers, continued to be steady. On the other hand, sales of high-performance glass cloth for semiconductor package substrates, especially high-end memories for handheld devices, grew strongly, although the market conditions of general-purpose semiconductors did not show a solid recovery.

In the Glass Beads business, although the number of road construction projects continued to decline, sales for road applications slightly increased following an increase in our market share since our products' advantage over competing overseas products gained recognition.

In industrial applications, sales of high-function products, including high precision glass beads, grew steadily.

In the Non-woven Fabrics business, sales of polyester spunbond and cotton spunlace recovered, mainly for filters and skin care products. Profitability improved thanks to the effects of price revisions. As a result, the deficit was reduced.

In the Industrial Fibers business, sales of polyester staple fibers were solid in the first half of the period but weakened in the latter part. Sales of high-strength polyester yarn also decreased. In response to rising costs, particularly raw material prices, the Business revised prices, resulting in higher sales and a reduced operating loss.

Consequently, the Performance Materials Segment saw both net sales and operating profit increase. The segment posted an operating profit of 298 million yen (versus an operating loss of 2,478 million yen in the previous consolidated fiscal year) on net sales of 37,037 million yen (up 8.3% year on year).

[Fibers and Textiles Segment]

In the Garments, Lifestyle Materials and Bedding business, looking at the mainstay uniform sector, public sector demand remained strong and private sector demand was generally steady. Sales in the general clothing, bedding and sport clothing sectors struggled due to weak demand during the period. In the overseas business, export sales of denim fabric recovered. In the Industrial Materials business, sales for household products and applications remained robust and sales for electric and electronic applications were steady.

Consequently, the Fibers & Textiles Segment saw net sales grow and operating loss decrease. The segment posted an operating loss of 357 million yen (versus an operating loss of 523 million yen in the previous consolidated fiscal year) on net sales of 33,923 million yen (up 2.8% year on year).

[Others]

The Others category posted an operating loss of 82 million yen (versus an operating loss of 87 million yen in the previous consolidated fiscal year) on net sales of 57 million yen (up 4.2% year on year).

(2) Overview of financial position

Total assets decreased by 36,902 million yen from the end of the previous consolidated fiscal year to 149,430 million yen mainly due to a decline in property, plant and equipment. Liabilities fell by 14,888 million yen from the end of the previous consolidated fiscal year to 133,197 million yen. This was primarily due to a decrease in deferred tax liabilities. Net assets declined by 22,014 million yen from the end of the previous consolidated fiscal year to 16,233 million yen. This was mainly due to a fall in capital surplus caused by the posting of loss attributable to owners of parent.

(3) Overview of cash flow

Cash and cash equivalents (hereinafter referred to as "net cash") as of March 31, 2025 increased by 2,933 million yen from the end of the previous consolidated fiscal year to 13,120 million yen.

(Net cash provided by [used in] operating activities)

Net cash provided by operating activities amounted to 6,293 million yen during the consolidated fiscal year under review (versus 8,169 million yen in the previous consolidated fiscal year) mainly due to cash flows resulting from adjustments for non-cash items, such as business restructuring expenses despite the posting of a loss before income taxes.

(Net cash provided by [used in] investing activities)

Net cash used in investing activities amounted to 3,146 million yen during the consolidated fiscal year under review (versus 7,541 million yen used in the previous consolidated fiscal year) mainly due to the posting of expenses related to capital expenditures.

(Net cash provided by [used in] financing activities)

Net cash used in financing activities amounted to 435 million yen during the consolidated fiscal year under review (versus 279 million yen used in the previous consolidated fiscal year) mainly due to repayment of lease liabilities.

(4) Future forecast

On November 28, 2024, UNITIKA LTD. formulated a new business restructuring plan and decided to pursue a business turnaround with the backing of REVIC and the Company's financial institutions. In addition, the implementation of a capital increase effected by allotting new shares to REVIC and a new management structure were approved at the Extraordinary General Meeting of Shareholders held on February 7, 2025. Incidentally, the business restructuring plan is based on financial support, including debt forgiveness of up to 43,000 million yen, from the Company's financial institutions, and their consent has been obtained.

The Company's top priority is to execute its business restructuring plan with certainty. The plan is built on the following four pillars: (1) withdrawal from unprofitable businesses and rationalization of supply capacity through structural reforms, (2) establishment of a cost-efficient management system through comprehensive cost reductions, (3) expansion of sales of high value-added products, and (4) strengthening of the organizational management system. The management team aims to transform its business portfolio by focusing on promising businesses, such as polymers, with a target of 70,000 million yen in net sales and 6,500 million yen in operating profit for the fiscal year ending March 31, 2030, the final year of the business restructuring plan.

In the fiscal year ending March 31, 2026, the first year of the business restructuring plan, UNITIKA will pursue business divestments and production transfers to other entities in segments subject to structural reform, with the aim of reaching an agreement by August 2025. Furthermore, the Company will expand sales of high value-added products and explore new applications to improve profitability in the polymers and inorganic material businesses. Alongside structural reforms, the management team will also work on logistics improvements, such as reviewing delivery routes, and cost-reductions initiatives, including enhancing operational efficiency.

The UNITIKA Group refrains from announcing a forecast for the full-year consolidated performance since it is currently

unable to make a reasonable estimate because the execution of business divestments in segments subject to structural reform is not fixed yet. The Group will immediately announce a forecast of consolidated performance for the fiscal year ending March 31, 2026 once a reasonable estimate becomes possible.

(5) Basic policy for profit distribution and dividends for the fiscal year ended March 31, 2025 and the fiscal year ending March 31, 2026

The Unitika Group considers profit distribution to its shareholders to be an important aspect of its business, but management intends to suspend payment of dividends on common stock and class shares for the fiscal year ended March 31, 2025, giving due consideration to the business results and financial situation at the end of the fiscal year.

For the future, Unitika's basic dividend policy is to conduct profit distribution to shareholders in line with the Company's financial results. At the same time, the Company will decide dividend payment after sufficiently improving its financial position and enhancing internal reserves to secure profit for shareholders from a long-term perspective.

Incidentally, as of April 30, 2025, the Company acquired and cancelled all outstanding Class A and Class B shares. In addition, it issued Class C shares through a capital increase by third-party allotment of new shares.

As a result, no dividends will be paid on Class A and Class B shares from the fiscal year ending March 31, 2026. Regarding dividend payments on Class C shares, the Company plans to pay 2.26 yen per share in accordance with the terms and conditions for issuance of class shares as stipulated at the time of issuance.

2. Basic Approach to the Selection of Accounting Standards

The Unitika Group adopts Japanese Accounting Standards (Japanese GAAP), since the Group intends to ensure the comparability of performance with competitors in Japan.

(5) Notes on consolidated financial statements

(Notes on going concern assumption)

Not applicable.

(Notes on change in accounting policies)

(Application of Accounting Standard for Current Income Taxes, etc.)

UNITIKA LTD. has applied the "Accounting Standard for Current Income Taxes" (ASBJ Statement No. 27, October 28, 2022; hereinafter, "Revised Accounting Standard 2022"), etc. since the beginning of the consolidated fiscal year ended March 31, 2025.

With regard to the revisions concerning the classification of income taxes (taxes on other comprehensive income), the Company has followed the transitional treatment set forth in the proviso of paragraph 20-3 of the Revised Accounting Standard 2022 and in the proviso of paragraph 65-2 (2) of the Guidance on Accounting Standard for Tax Effect Accounting (ASBJ Guidance No. 28; October 28, 2022; hereinafter, "Revised Guidance 2022"). This change in accounting policies had no impact on the consolidated financial statements.

As for the revisions related to the change in the treatment in consolidated financial statements when gains or losses on sales of shares of subsidiaries, etc. between consolidated companies are deferred for tax purposes, the Company has applied the Revised Guidance 2022 since the beginning of the consolidated fiscal year ended March 31, 2025. This change in accounting policies has been applied retrospectively, and the consolidated financial statements for the full year of the previous fiscal year ended March 31, 2024 have been restated accordingly. This change in accounting policies had no impact on the consolidated financial statements for the full year of the previous fiscal year ended March 31, 2024.

(Notes on segment information, etc.)

[Segment Information]

1. Summary of reportable segment

Unitika's reportable segments are components of the Company for which separate financial information is available. These segments are subject to regular reviews by the Board of Directors to decide the distribution of managerial resources and evaluate business results.

The Company sets up divisions by product and service in its head office. Each division formulates comprehensive domestic and overseas strategies for its products and services and conducts business activities according to the strategies. Unitika consists of segments by product and service based on divisions. The following three are its reportable segments: Polymers, Performance Materials, and Fibers & Textiles. The Polymers segment manufactures and markets films and resins. The Performance Materials segment makes and sells glass fibers, nonwoven fabrics and so on. The Fibers & Textiles segment makes and distributes various types of fibers (threads, cotton, textiles, fabrics and the like).

2. Methods to calculate the amount of net sales, profit or loss, assets and other items by reportable segment Methods of accounting treatment of reported business segments are pursuant to accounting policies adopted for preparation of consolidated financial statements.

Inter-segment earnings and transfers are based on prevailing market prices.

3. Information on the amount of net sales, profit or loss, assets and other items by reportable segment Previous consolidated fiscal year (April 1, 2023 to March 31, 2024)

(Unit: Millions of yen)

(Important subsequent event)

At the Board of Directors meeting held on November 28, 2024, UNITIKA LTD. resolved to approve the following items 1 and 2. These proposals were also approved by resolution at the Extraordinary General Meeting of Shareholders held on February 7, 2025.

Pursuant to these resolutions, the subscription payment for the issuance of class shares through a third-party allotment was completed and the capital reduction became effective on April 30, 2025.

- 1. Issuance of Class C shares through a third-party allotment
 - (1) Date of payment: April 30, 2025
 - (2) Number of new shares issued: 115,504,600 shares
 - (3) Issuance price per share: 173.16 yen
 - (4) Total subscription amount: 20,000,776,536 yen
 - (5) Amount of increase in share capital: 10,000,388,268 yen Amount of increase in legal capital surplus: 10,000,388,268 yen
 - (6) Method of subscription or allotment: Third-party allotment (Planned allottee) Regional Economy Vitalization Corporation of Japan: 115,504,600 shares
 - (7) Use of proceeds

Proceeds to be used for business restructuring (withdrawal from unprofitable businesses: 14,000 million yen, demolition of buildings and other related work: 6,000 million yen)

2. Decrease of share capital and legal capital surplus

Considering its current business structure and financial performance, the Company seeks to ensure financial soundness through the appropriate application of tax and institutional measures. In addition, it will conduct a reduction in share capital and legal capital surplus to prepare for future capital policies that support more agile and efficient operations.

- (1) Amount of share capital to be reduced
 - The company will reduce 10,000,838,268 yen from 10,100,838,268 yen, the amount of share capital after a capital increase through a third-party allotment (which consists of the total of current share capital of 100,450,000 yen and the share capital increased through a third-party allotment of 10,000,388,268 yen), bringing the total share capital to 100,000,000 yen.
- (2) Amount of legal capital surplus to be reduced The company will reduce 10,025,500,768 yen from 10,025,500,768 yen, the amount of legal capital surplus after a capital increase through a third-party allotment (which consists of the total of current legal capital surplus of 25,112,500 yen and the legal capital surplus increased through a third-party allotment of 10,000,388,268 yen), bringing the total legal capital surplus to 0 yen.
- (3) Method to reduce the amount of share capital and legal capital surplus
 Pursuant to Article 447, paragraph 1 and Article 448, paragraph 1 of the Companies Act, the Company
 will reduce share capital and legal capital surplus as described above and will transfer the full amounts
 reduced to other capital surplus.
- (4) Effective date of the share capital and legal capital surplus reduction April 30, 2025
